

Salmon River Rafting Trip on the “River of No Return”

Join Huston Vineyards and Idaho Adventures for the Ultimate Pairing, Aug 2-6, 2017

Join Gregg and Mary Alger, owner operators of the award winning Huston Vineyards, for a spectacular wilderness adventure featuring days filled with rafting, fishing and exploring the Idaho backcountry. Evenings are spent fireside enjoying time with friends and family, while discovering why Gregg and Mary’s Idaho wines are so popular.

Your gourmet river cuisine will be personally and expertly

paired by Gregg and Mary with their award winning wines grown in Idaho’s Snake River Valley Viticulture Area as you travelling through 82-miles of the Frank Church ‘River of No Return’ Wilderness. The Main Salmon River carves its way through the heart of one of the largest wilderness areas in the United States and the 2nd deepest canyon North America.

You’ll find the distractions of day-to-day city life

simply do not exist here. At times you’ll plunge through rapids or gently glide through peaceful sections past remnants of Native American and early pioneer settlements – abandoned homesteads, cabins and early

mines. The Main Salmon is warmer than most mountain rivers, and there are plenty of rapids of varying difficulty from splashy Class II runs to adrenaline pumping Class IV drops at Black Creek, Bailey, Split Rock, Big Mallard and Elkhorn. Campsites along the river are on big sandy beaches shaded by beautiful Ponderosa and Douglas fir. All our guides are licensed and experienced and are there to make sure that your adventure is enjoyable and safe. Idaho Adventures has been showing guests the wonders of the Salmon River since 1973!
